

Memorial Lecture, The 8th ISACM

May 26th, 2023, Osaka

My dreams of MEG
in the late 1980s and in the present

TOHOKU
UNIVERSITY

Nobukazu Nakasato

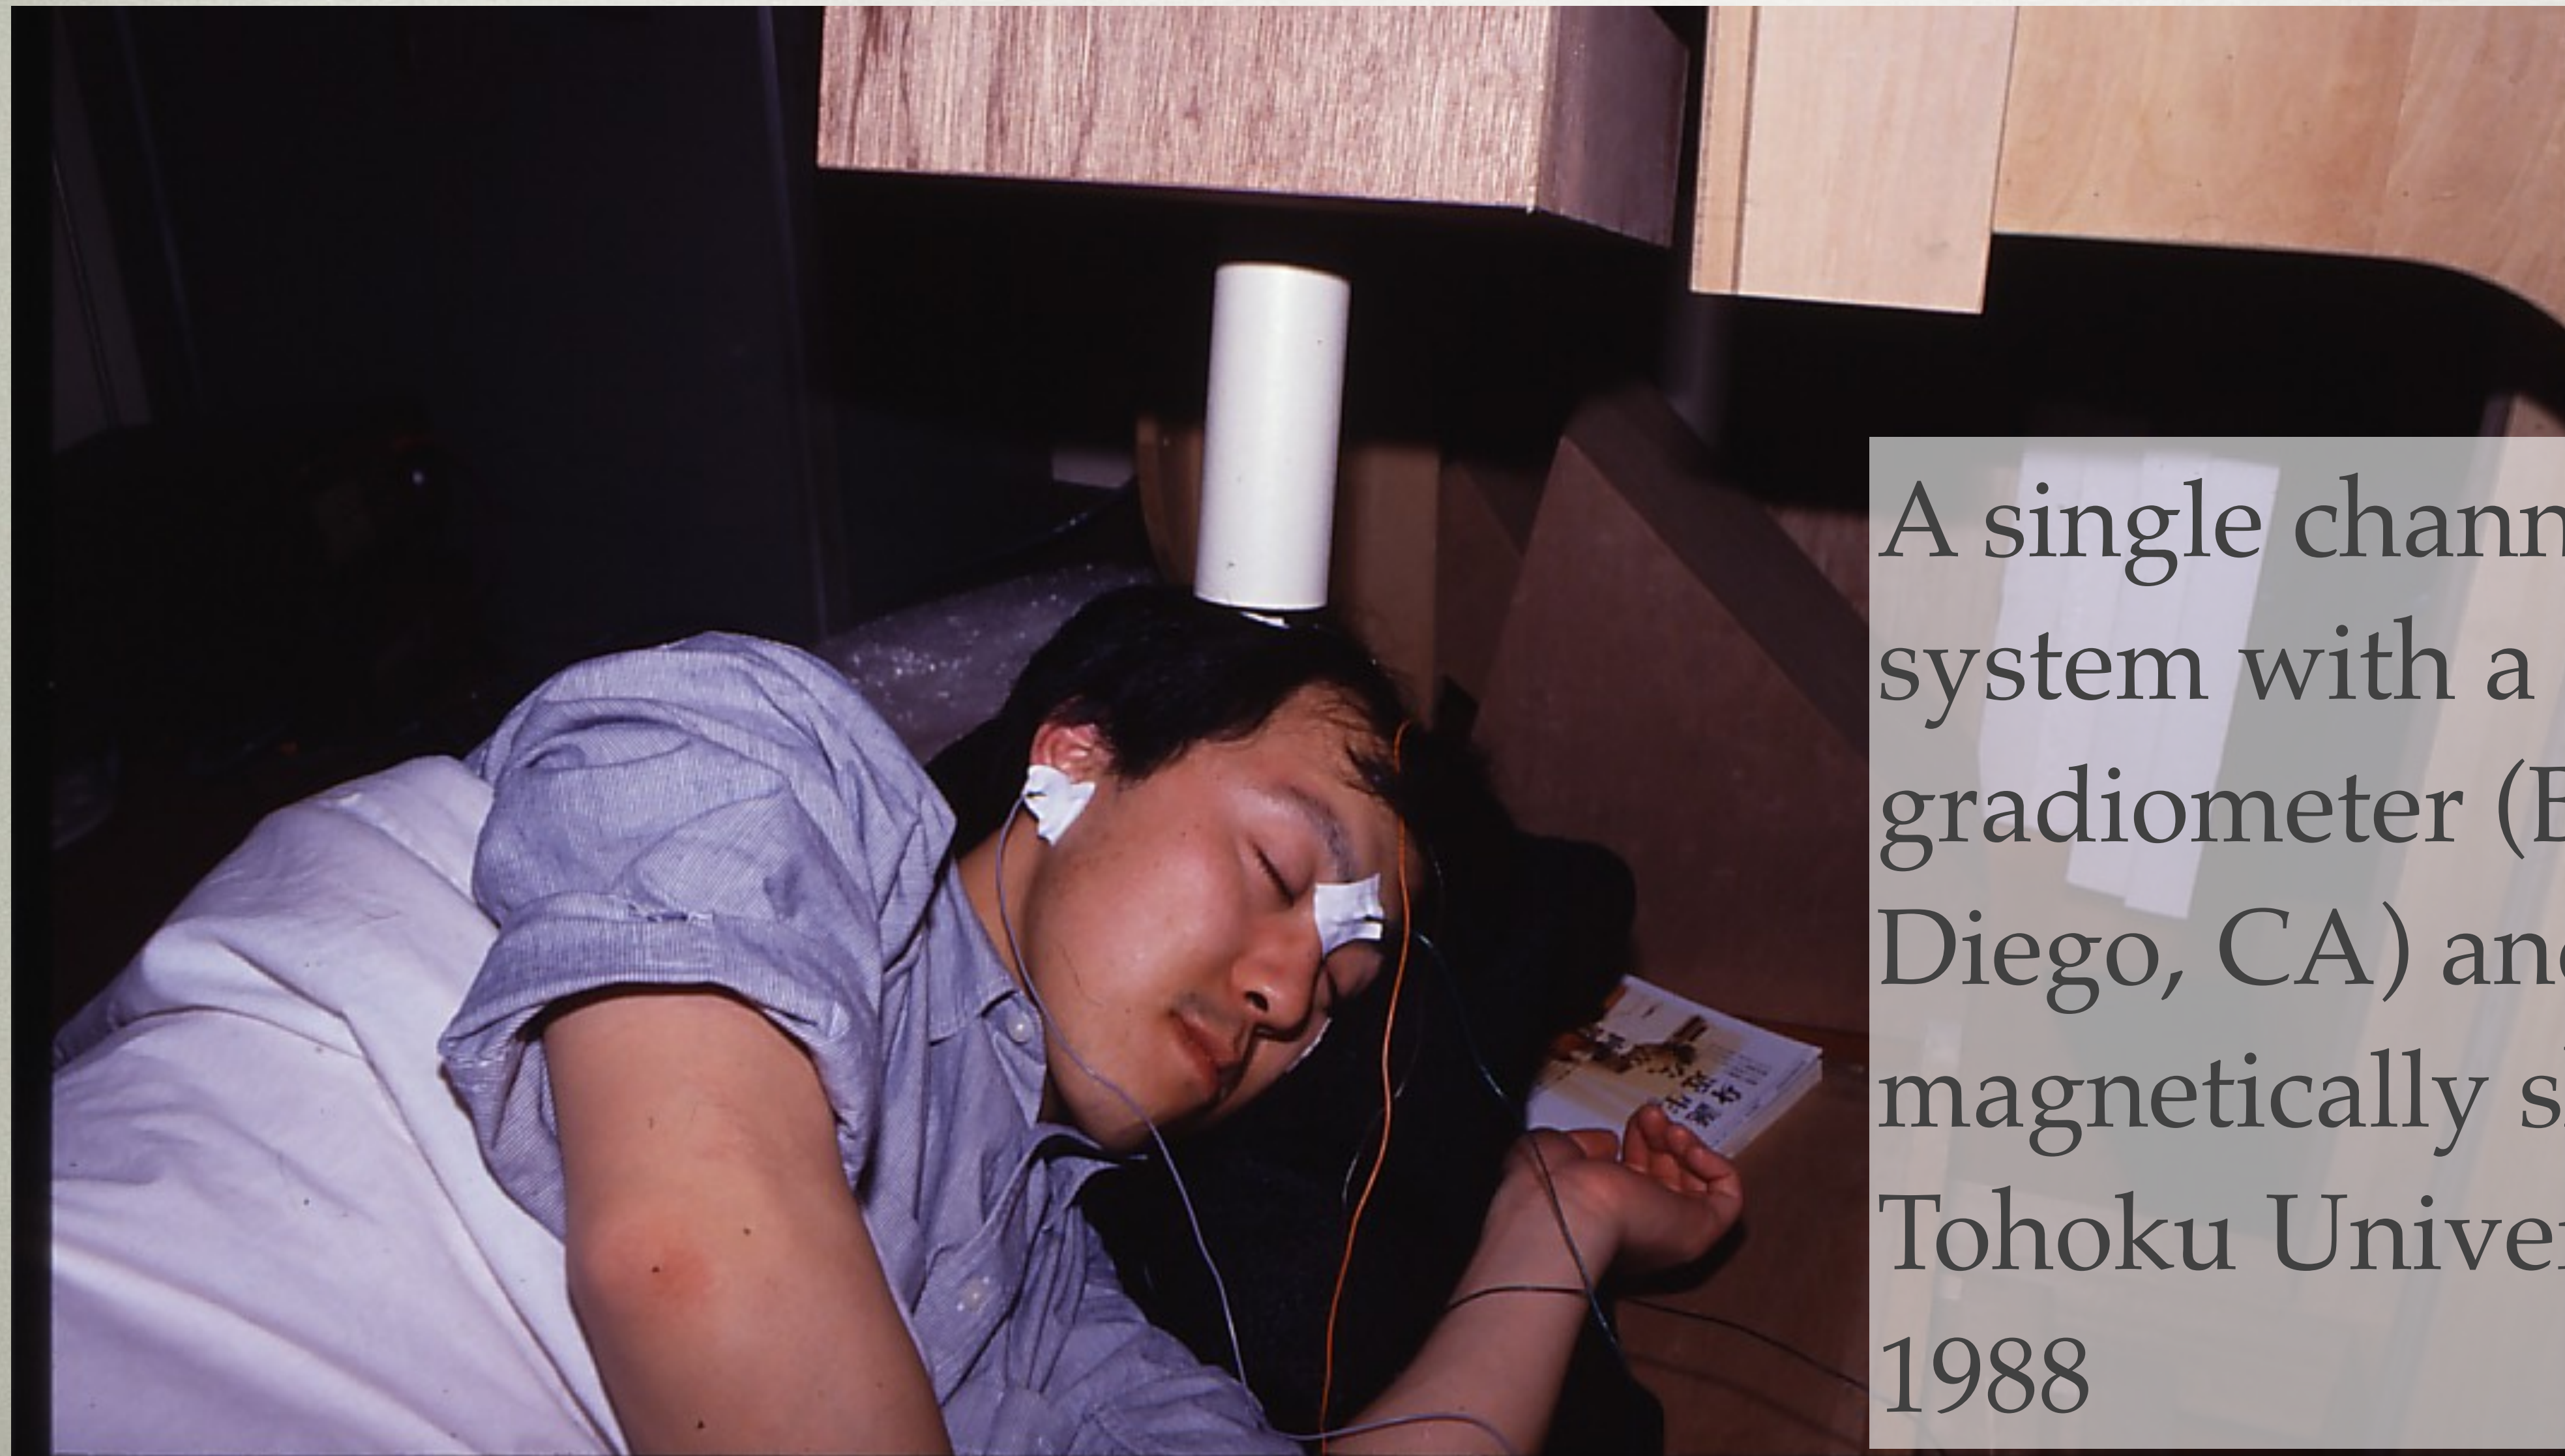

Jiro Suzuki
1924-1990
Chairman of
Neurosurgery

*“The brains of everyone in the audience, without exception, all generate electricity. Moreover, magnetic fields are also produced. We now can measure them from a distance. **Dr. Nobukazu Nakasato** is currently studying MEG, and I believe the time will come when we will be able to predict changes in human emotion and behavior to some extent”*

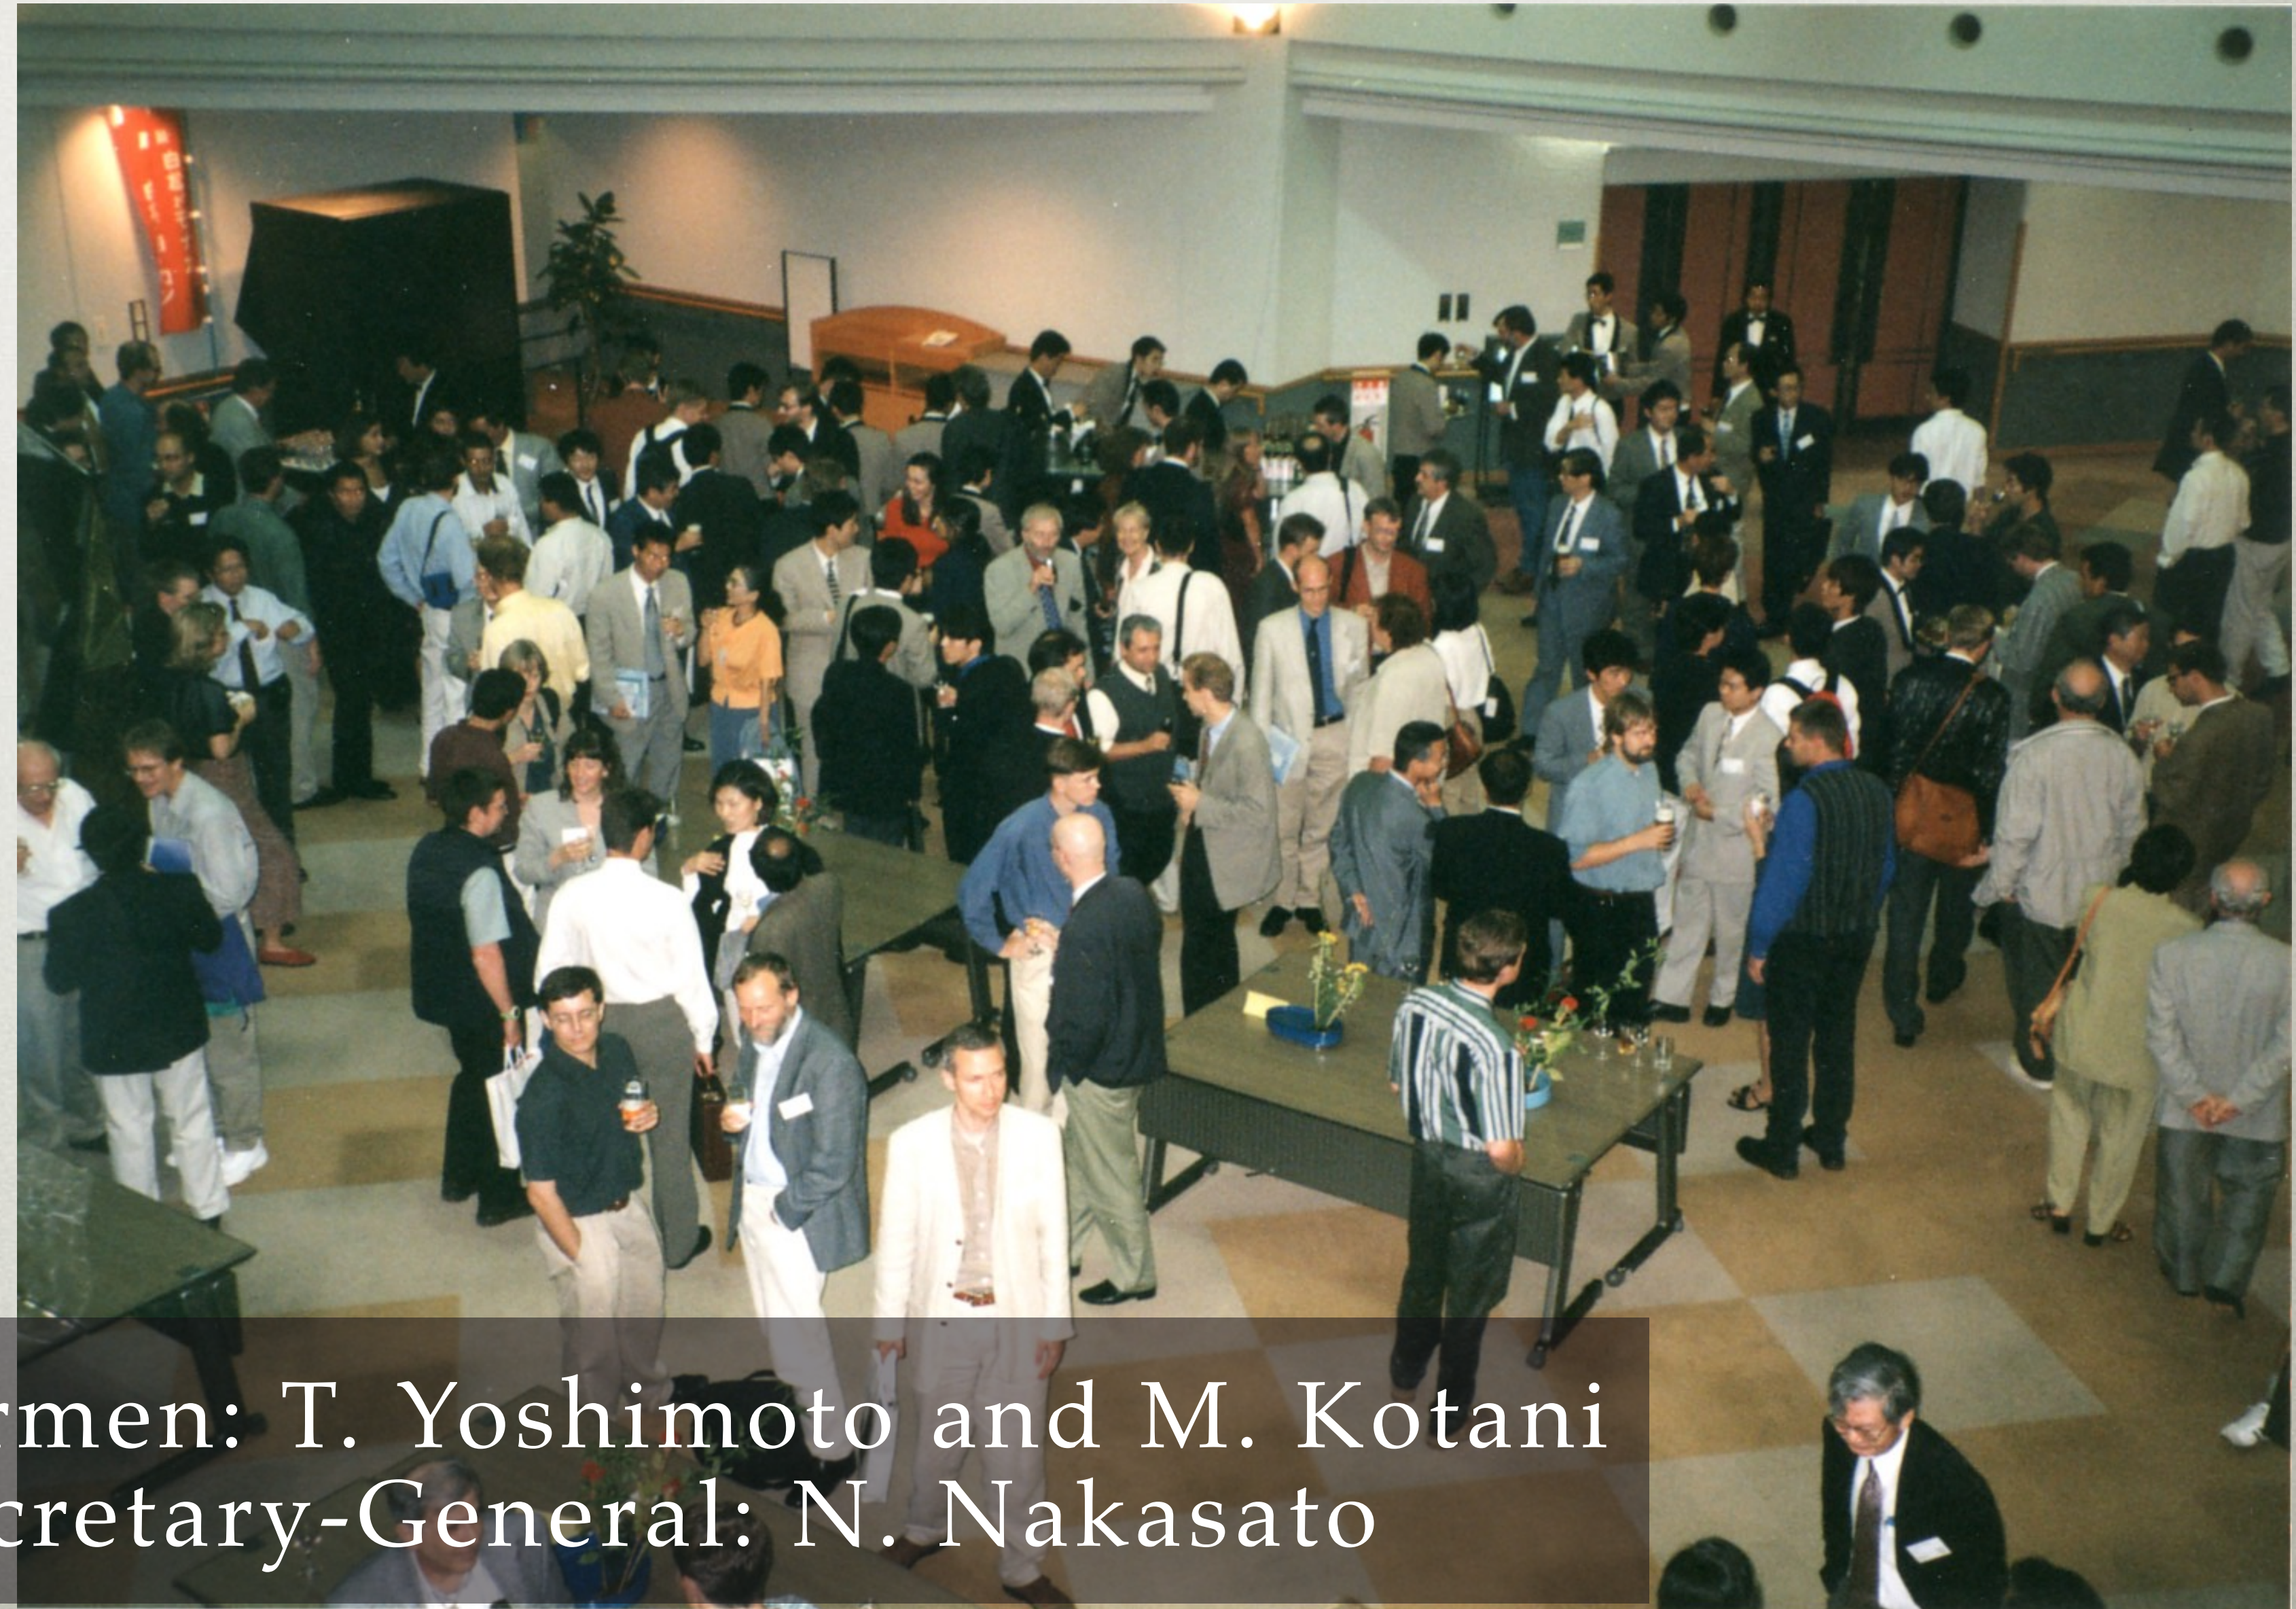

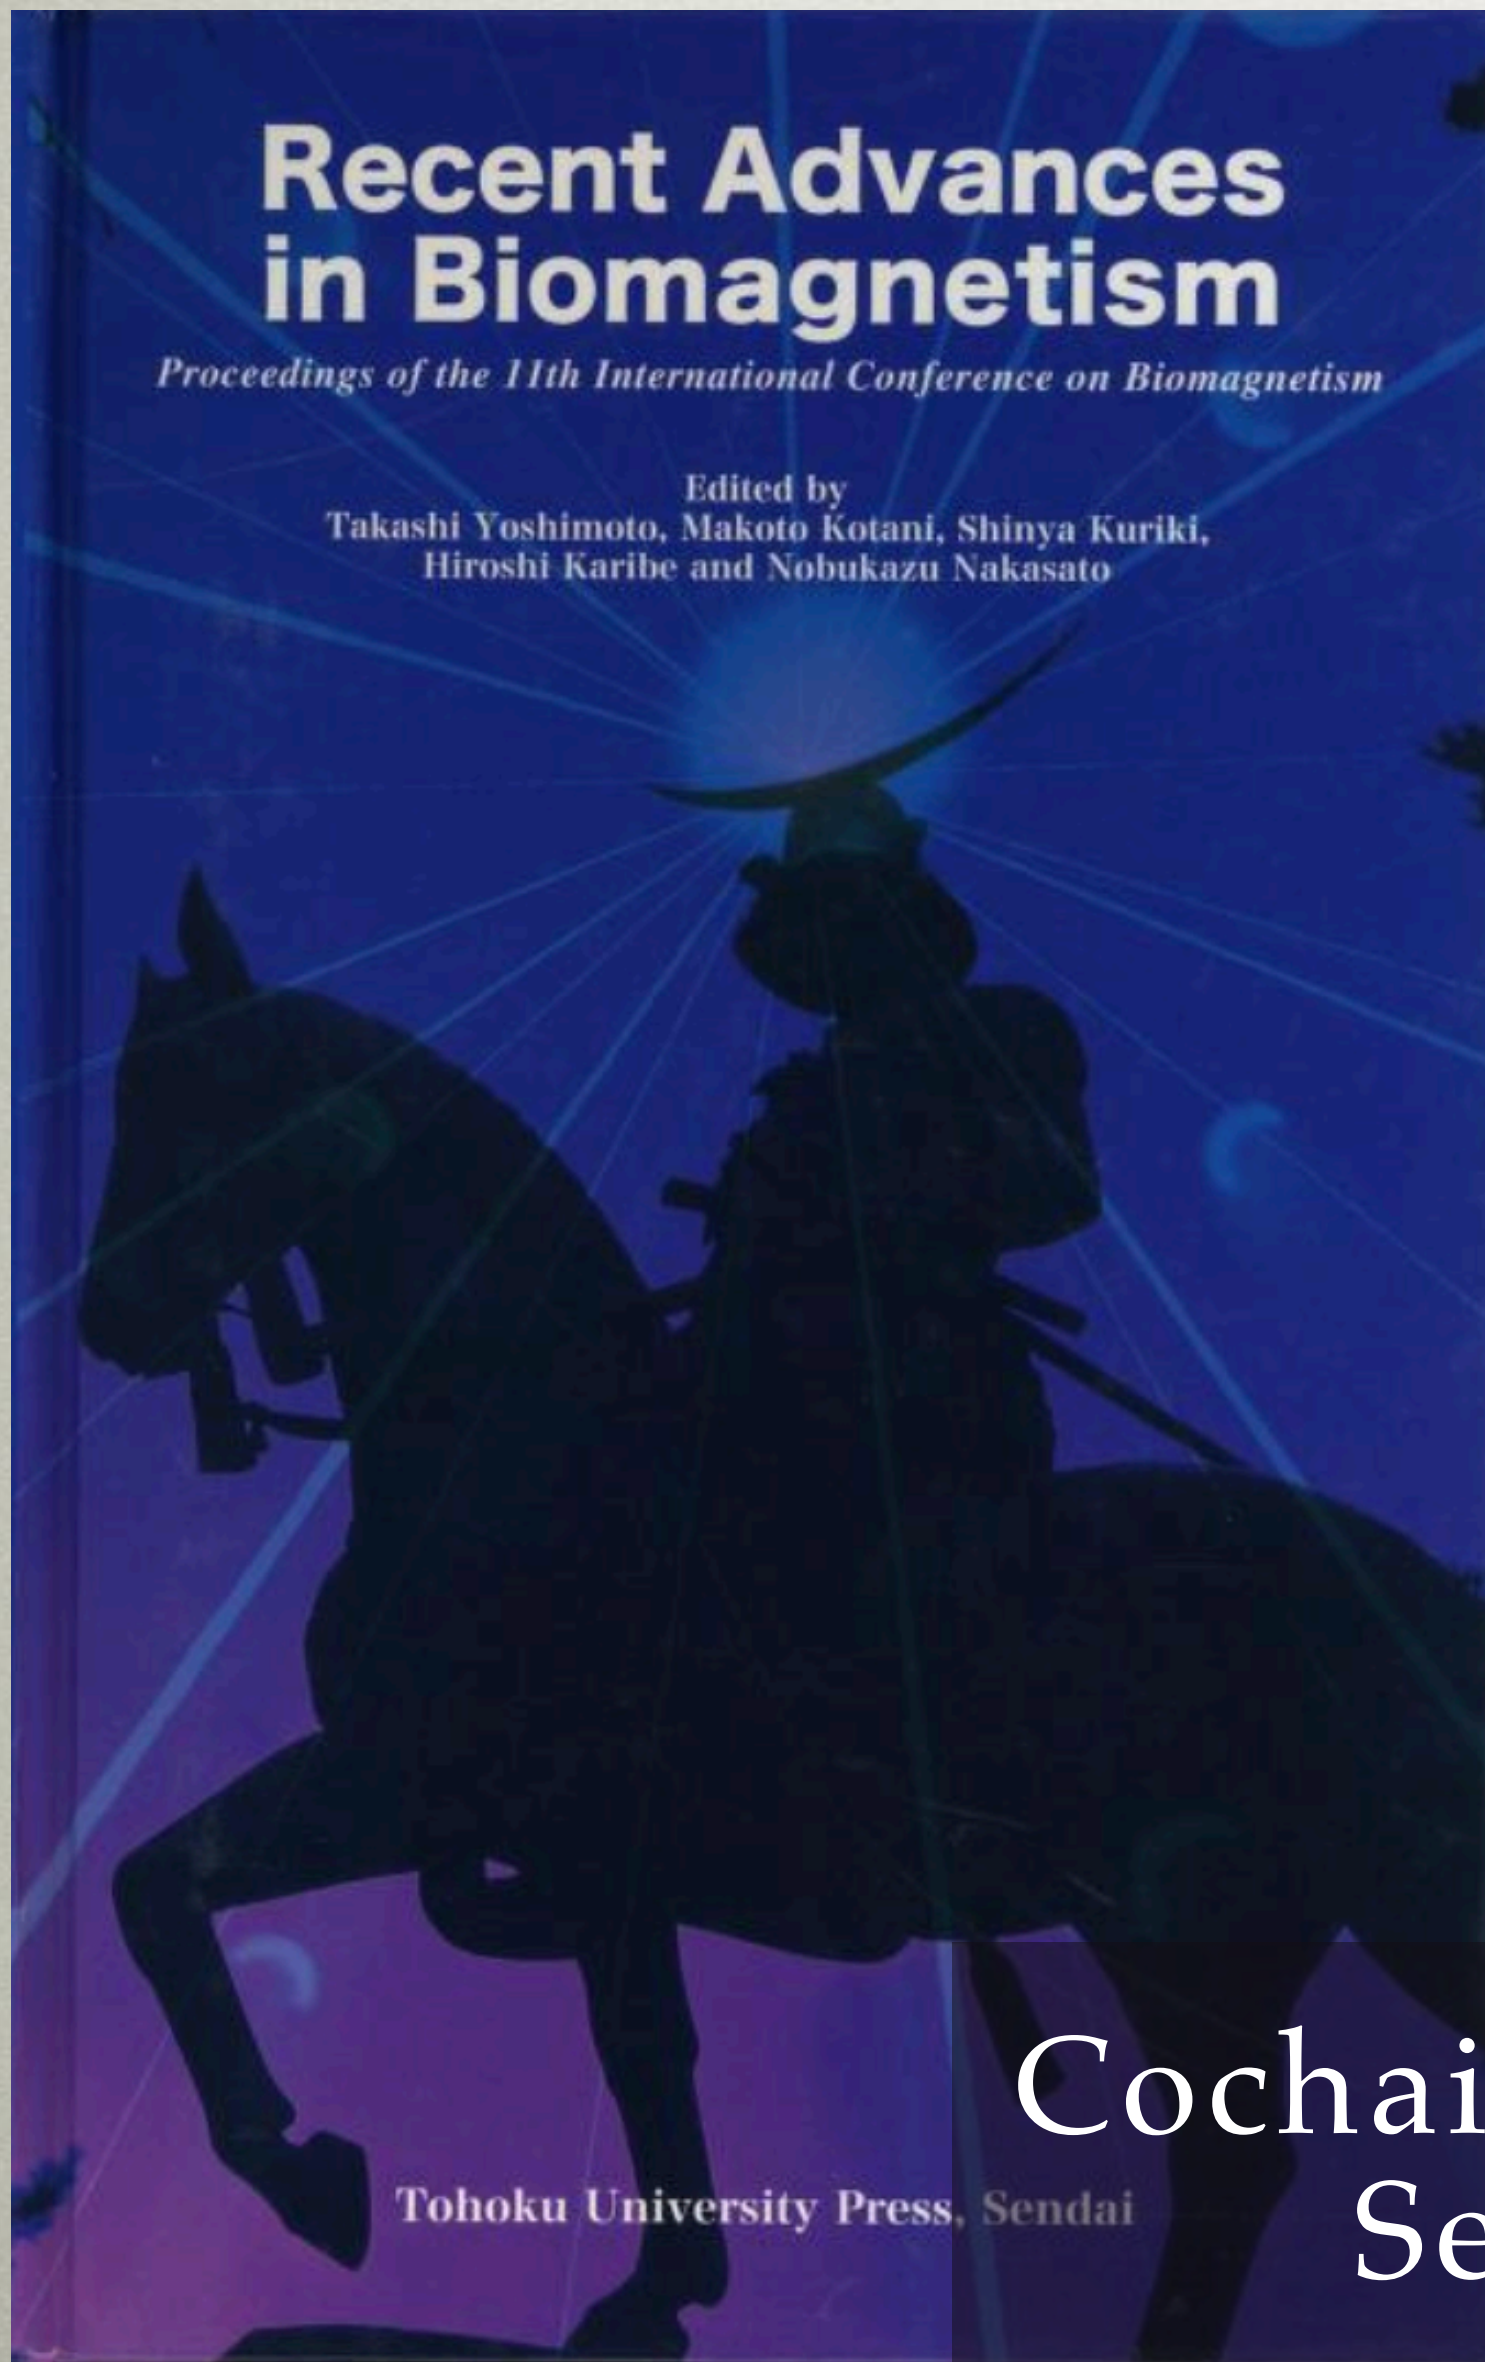

A public talk entitled “Brain and Mind”,
Sendai, 1987

Midnight measurement of sleep MEG

A single channel SQUID system with a 2nd order gradiometer (BTi, San Diego, CA) and “no” magnetically shielded room, Tohoku University Hospital, 1988

BIOMAG 1998, Sendai
